

Kunnskap for en bedre verden

# FRONT PAGE / PUT YOUR TITLE HERE

Subtitle

Name of the author(s)

October 3, 2024

# Contents

## Introduction

## Sources

# A typical slide

- ▶ Start with an introduction
- ▶ Use `itemize` or `enumerate` to organize your main points
- ▶ Refer to sources with [1]
- ▶ Write inline equations like this:  $E = mc^2$

## Example

Rather than freely writing text in the frame, the use of blocks (such as this) is recommended. Here you can find a short introduction to the basics of beamer:

1. <https://www.overleaf.com/learn/latex/beamer>

# Sources I

- [1] D. E. Knuth, *The T<sub>E</sub>Xbook*. Addison-Wesley, 1984.
